Kathy

I sent a map and list right before lunch - if you didn't receive them, let me know. If you got those but are looking for something different, we need to talk so I can figure out what to send you.

Estimated total volume of tailings at the "site" is 1.48 million cubic yards. Estimated volume of tailings within the black boxes on the figure that you forwarded yesterday is 1 million cubic yards, or about 2/3 of the total tailings. These are very rough estimates...

Bruce

Subject: ? Map

Can you send me the list of land owners and the map of planned developments. Also do you have an estimate of the tailings on the Pace property as defined in the map I sent yesterday?
